EDUCATION

VIT Bhopal University

B.Tech in Computer Science (Artificial Intelligence and Machine Learning)

CGPA: 8.63/10.00

Bhopal, Madhya Pradesh

Aug 2023 – Aug 2027

TECHNICAL SKILLS

- **Programming:** C++, Java, Python, JavaScript, TypeScript
- **Web Technologies:** ReactJS, Node.js, Express.js, Next.js, FastAPI, MongoDB, HTML, CSS, Bootstrap, Tailwind CSS, Material UI
- **Tools & Cloud:** Git, GitHub, Cloudinary, Microsoft Azure
- **Core Concepts:** Data Structures and Algorithms, Object-Oriented Programming, DBMS, Authentication, Authorization, REST APIs
- **Machine Learning:** Natural Language Processing, TF-IDF, Scikit-learn, Classification Models

PROJECTS

VibeCode — AI-Powered Web IDE | *Next.js 15, TypeScript, WebContainers, Monaco Editor, Gemini API, Prisma, MongoDB* | [GitHub](#)

- Engineered a browser-based AI-integrated IDE using Next.js 15 and WebContainers, enabling sub-second sandbox code compilation and execution in the browser across 6+ frameworks (React, Next.js, Express, Hono, Vue, Angular).
- Architected a dual-mode AI engine integrating Google Gemini API (gemini-2.5-flash) with a local Ollama fallback, reducing inline code completion latency by 45% and providing a context-aware chat assistant for project refactoring.
- Configured Edge-compatible NextAuth v5 session controllers (Google & GitHub OAuth) and a MongoDB + Prisma ORM data layer to persist playground workspaces, optimizing database client load times.
- Unified an interactive xterm.js terminal with WebContainer system shells alongside a custom file explorer, allowing zero-setup workspace scaffolding and full file CRUD operations inside browser runtime sandbox.

Nexus Cart — Voice-Powered Shopping Assistant | *React, Node.js, Express, MongoDB, Gemini API, NLP* | [GitHub](#)

- Pioneered a voice-driven E-commerce assistant using React, Node.js, and Web Speech API, achieving low-latency (<250ms) speech-to-text conversion and real-time state synchronization.
- Leveraged Google Gemini API for Natural Language Processing (NLP) to parse complex commands, achieving 94% classification accuracy in item categorization, unit conversion, and localized price estimations.
- Streamlined database queries using high-performance MongoDB Atlas upsert logic with Mongoose, reducing database query overhead by 30% by aggregating shopping items and preventing duplicate records.
- Orchestrated an automated inventory restock scheduling engine covering 35+ products, deploying exponential backoff and retry handlers to achieve 99.9% API integration uptime under rate-limit constraints.

Full Stack Job Portal | *React, Node.js, Express, MongoDB, Remote API, JWT, bcrypt* | [GitHub](#)

- Established a full-stack job search portal integrating the Remote API to dynamically ingest and index 1,000+ live remote job listings alongside user-submitted entries.
- Programmed secure JWT authentication, password hashing (bcrypt), and schema-level validation, protecting user data and profile records.
- Conceptualized a responsive glassmorphism client dashboard with debounced search input, reducing API fetch calls by 40% and boosting navigation rendering performance.
- Decoupled and deployed microservice components, hosting the React client on Vercel and the Express API server on Render with 99.8% application availability.

EXPERIENCE

Ethnus

May 2025 – Jul 2025

MERN Stack Intern

Remote

- Forged RESTful backend services for 3 major modules handling 50,000+ database records.
- Optimized MongoDB schemas and queries, improving data retrieval speed by 25%.
- Crafted responsive React interfaces for 12+ pages, reducing page load time by 20%.
- Executed authentication and role-based access control for 100+ users.

ServiceNow

May 2026 – Jun 2026

Virtual Internship Program — ServiceNow University, AICTE & SmartBridge

Remote

- Mastered ServiceNow administration concepts including user management, platform configuration, workflow automation, reporting, and dashboard creation.
- Explored Agentic AI capabilities and automated workflows within the ServiceNow platform.
- Validated platform custom application logic using ServiceNow Automated Test Framework (ATF) configurations.

CERTIFICATIONS & ACHIEVEMENTS

- **AlgoUniversity Programming Camp:** Selected as a mentee from 60,000+ students; featured in the Hall of Fame.
- **Certifications:** Generative AI for All (Infosys), Artificial Intelligence for All (Infosys), Microsoft Azure Fundamentals (Microsoft), MERN Full Stack Development (Ethnus), Applied Machine Learning in Python (University of Michigan).
